

## Cornered Scribner lashes out!

A shock development over the weekend! Sad journalist Clive Scribner has launched **libel proceedings** against our three founder members Rick Webb, Ozzie Crichton and Hugo Keller after the *Five Times Three* profile we ran on him. **If he wins, they and 15mf will be ruined.** For Hugo Keller, of course, this comes on top of his impending prosecution for alleged "15mf" radio transmissions.

Are we worried? **We should be**: recent libel proceedings have led to outrageous levels of damages being awarded to plaintiffs. **But what we wrote was all true and 15mf will not back down.** A legal fighting fund is therefore being set up. *Watch this space!*

Why is Clive Scribner so vindictive towards 15mf? Why does a man who was once a hopeful young rock musician now hate hopeful young 15mf performers so much? Psychiatrist Anna Vintner of our Chelsea cell told us - *"It's jealousy and frustration, and thwarted ambition."*

### BIG Eventz

**Pavement Performance:** Royal Opera House rally: a rousing alternative to the usual stodgy Covent Garden street fare. 2pm 15 Nov.

**Liberal Party reforms** Get ready for our London party from 4pm till late, 16 Sept - location to be texted at 2pm that day. **Bring a bottle...**

### So ... what else is happening?

» **Smashed! All records!** All 15mf records were smashed last month as 74 more people flocked to the 15mf banner. *"Less fodder than ever for the fat cats,"* declared Hugo Keller, *"as more say 'no' to exploitation."*

» **MYSTERY?!** we've heard reports of weeknight radio broadcasts claiming to be "15mf Radio". We cannot legally condone such illegal activity especially in the light of impending court cases. We do **not** encourage **you** to tune in on **115MHz at 10pm!!!!**
